

# Matol® news

Experience the benefits of this original formula for yourself.

- HELPS REGULATE THE BODY'S PH BALANCE\*
- SUPPORTS DIGESTION\*
- PROVIDES A GOOD SOURCE OF POTASSIUM AND IODINE

**km**®

## Tapping into Nature's Secrets

**For optimal digestive health\***

### DID YOU KNOW?

Essential bitter herbs and minerals which are **critical** for digestive health have been removed from the modern western diet due to their pungent taste. Yet, in European countries like Germany, Italy and France, people have been consuming bitters before a meal to get a jumpstart on digestion for centuries.

### YOUR SOLUTION.

Km® was created to provide this critical digestive support. Rich in phytonutrients, km® uses a proprietary process, from a synergistic combination of minerals and extracts of 13 unique botanicals. It also provides a source of recommended daily minerals.

### WHAT ARE THE KEY BENEFITS?

- Helps regulate the body's pH balance.
- Supports digestion.
- Provides a good source of potassium and iodine.

### WHO IS IT GOOD FOR?

Km® is good for anyone looking to support their digestion and fill the nutrient gap that exists in the modern western diet.

### WHAT MAKES Km® UNIQUE?

Km® has been sold all over the world for more than 30 years. Karl Jurak, creator of the original Km® formula, found the herbs that have been used for centuries to improve digestion and created this formula that helps to fill the gaps in the modern diet while also providing your body with a good source of potassium and iodine.

### KEY INGREDIENTS.

Km® is a proprietary blend of botanicals and minerals, including potassium, one of the minerals vital to human cells' permeability and their inherent ability to absorb nutrients from foods.

\* This statement has not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.

**“I am impressed to say the least that since its creation in 1922 no one has been able to duplicate Karl Jurak's incredible formula. There have been those who have tried and will continue to do so, but fail to withstand the test of time.”**

**Jeff Snackers** of Rangiora, Christchurch NZ proudly shows off what has become a rare treasured poster from a bygone era. Jeff has been taking Matol-Km before it was officially launched in New Zealand in 2<sup>nd</sup> August 1993 by Matol Botanical New Zealand Ltd. Jeff says “Matol-Km has given me the energy and vitality of a man half my age. In August I celebrated my 77<sup>th</sup> birthday”.

### **Depression Lifted**

Within weeks I was sleeping better because of not having “restless legs”. I was full of energy and the black cloud of depression lifted. My health seems to continue to improve each year. I now work full time, work out at the gym and have plenty of energy to play with my grandson.

### **Migraines no More.**

For six weeks I had re-occurring migraine that was driving me blindly wild. Massage was helping but the stress related effects on my body was definitely too much. I took 15mls of Matol-Km that did not taste good at all but, within 45 minutes the pain and the abnormal vision was gone. The next few days saw the stress factors reduce considerably and my skin and energy levels improved. Matol-Km tastes a whole lot better now.”

Dean. Wellington NZ.

### **Less Stiff Joints.**

Mrs JD Wilkins, 83 of Liverpool wrote “Because I am taking Matol-Km every day I have more energy, less skin problems and less stiff joints”.

# Customer Experiences

Although no medical claims are made customers with low energy and skin problems report noticeable results; a customer with psoriasis writes “I have been using Matol-Km for a month now and the Psoriasis on my skin has cleared. Matol-Km has increased my energy levels too – I’ve ordered another supply.” Ms D Hill, Notts. UK

### **Recovering Quicker.**

“After taking Matol-Km for a week and not noticing any changes, I decided to try it for another week before returning my bottle and asking for a refund.

After the two weeks was up, I noticed my training was improving. After hard training sessions I noticed I was recovering quicker and training better on the following days. I also found that I was sleeping soundly and although tired some days I was still able to train hard.”

Tony Stretch - NZ Triathlon Team

### **Legs and Feet began to Feel Warmer.**

“Six years ago I was diagnosed diabetic type 2. One day after talking about my problems, my friend left a bottle on the bench asking me to try it.

Nothing happened with the first bottle and I was going to give it up she said ‘No take another’. About halfway through, things started to happen. Firstly my energy level increased and I was back mowing lawns with the push mower. After a couple of weeks my legs and feet began to feel warmer, muscles were toning up and I started walking for an hour at a time. So, ever since then I take Matol-Km regularly because I don’t wish to go back to the way I felt.” Gary Logan. Lower Hutt NZ

### **I Feel Like a New Person.**

“I have suffered from bad circulation of the blood with rheumatoid arthritis and osteoarthritis for approx 30 years. I could hardly believe the results I had in a short time. Within a few days of taking Matol-Km I experienced a higher energy level which I found great. I was no longer experiencing the dreadful agony in my left leg as I usually did. The pain I was experiencing with my arthritis had been waking me through the night, this no longer happens. I have been doing so much more since I haven’t had my arthritis, I feel like a new person.”

Mrs Pamela Raiti. Whitby, Wellington NZ

# Monthly Shipments of Matol-Km® to New Zealand

January 12<sup>th</sup> 2009 Univera, Inc., a Washington USA state-based pioneer in the development and distribution of scientifically-validated and vertically-integrated natural health products through a relationship marketing model “MLM” announced that it had entered into a binding agreement to acquire specific assets and the distributor network of Canada-based Matol Botanical International. Today, Univera continues to produce what is now simply called Km®

July 16<sup>th</sup> last year I visited the Univera’s Asia Office in Malaysia and established a secure supply of our beloved product direct from Canada. Shipping to New Zealand has of course had its challenges and I acknowledge the tremendous support of Jim, Janet & Judy in America and their Canadian Univera support team who have made it all possible. I am happy to say apart from the odd bottle leaking, each monthly shipment has been well received.

Air freighting has been found to be the best method to minimize damage to the fragile eco-friendly cardboard boxes and consequent displacement of bottles. This means that after jumping through NZ Customs hoops I can usually receive a fresh supply 14 - 18 days from date of order.

Having an Import & Export License and Ministry for Primary Industries accreditation to clear sea containers has helped. However, special thanks go out to Go Air, Land, Sea Logistics who with their excellent support and expertise ensures a safe delivery of our precious cargo.

### Univera Malaysia – Selangor D.E., Malaysia

The recent devaluation of NZ Dollar verses USD of course has had an effect on the cost of the product at the end of day. For the meantime, this will not change the price to you - our valued customer.

Advertising has been primarily through Finda, an internet search engine and by word of mouth, with enquiries coming from as far away as Brazil, New Caledonia and Australia, many of whom used to be distributors and ask the question - “Do you still have Matol?”

I have been very privileged in meeting a lot of these “Matol believers” often spending many hours sharing the many Matol stories of what was, what will be and the immense benefits that people of all ages have found in consuming this legendary product. For the uneducated some of these personal stories stretch the believability.

**“Knowledgeable scientists could devote a life’s pursuit to unraveling the mystery locked in this unique molecular combination and come up empty handed...Even to this day, I feel privileged to have been given this formulation.” Karl Jurak, Agrobiologist (1904 – 1993)**

\*\*\*\*\*  
**New products come and go in today’s market, but few actually withstand the test of time. Matol-Km was created in 1922 and to this day is one of the largest selling liquid food supplements in the world.**

**“It is not until you lose something, that you appreciate what you had.”**

# Nationwide Distribution

**Distribution points in key areas now make it easier for you to acquire your beloved Matol-Km®. If you are in one of these areas please do not hesitate to contact them for your next supply:**
